the trillions of DNA molecules are all in communication with each other all the time

Innate is the intelligent field knowing which cell should build with organ

Innate is the field around the trillions of pieces of DNA, that knows itself as one entity

DNA, cells and body is one-thing = smart-body = Innate, is body-wide DNA consciousness, connected to higher self + akashic record

talking to a field in the body, not an organ

Innate is unique, its you

Homeopathy works to Innate - the intent in the homeopathy sends a signal !!!

bridge to the corporal body by intuition

human being as you know it, will disappear

new one will life long, be master

you address your body in a way, that is so pure, that the body sees it - and react

DNA connects with brain - DNA field sends brain signals to heart, digestives, the muscles

de-program instruction set of Innate

re-program everything as you like

DNA: programmed for body survival

Innate: programmed for spiritual survival - this you need to re-program,

it will do everything it can for you to ascend and awake humanity

consciousness through pure intent

you have permission

use affirmations - esp. the ones you create yourself

no need to die before ascension - its not longer about spiritual survival,

what used karma-program to die and re-born

you are now advanced spiritual thought - you can capture wisdom and move forward

no need to die, no short-lifetimes

you are the consciousness trigger

1.drop your karma (dissolve polarity, you are 9 !)

2.drop energies of the past (spiritual survival-deprogramming)

3.change your fate

4.aha experience

5.stop aging say: you don't have to die to have spiritual growth

6. stay healthy while you don't age
7. not complicated, filled with love
8. you're in control of even time
9. spontaneous healing / tissue grow / over night is normal
power of Innate / you ...
10. physical objects come from your thoughts
11. every thought is seed of light, through those seeds you
create the flower of life which are the manifestation of
your thoughts ... honour yourself knowing you are the
tree of life holding all innate wisdom, magic and
knowing ... world is truly created and designed by you
12. mighty i am presence - knowing everything is perfectly
aligned
(not being dependent of anyone else, trust yourself, love
yourself, i can freely enter higher dimensions by tuning in)

The vibrations of the sacred [Solfeggio sounds](#) open the receptors of your cells, allowing the activation to more easily be imprinted on the DNA. Sound sets the vibration of the body at the correct rate to receive the activation at each level. The energy vibration of colors adds to the power of this activation.

The additional DNA strands are of magnetic, multi-dimensional nature, sacred geometry streams

Explanation of the additional 10 Strands

3rd DNA Strand—The Meaning of the Third Strand DNA Activation is to release the death programming.

4th DNA Strand—The Meaning and Function of the Fourth Strand DNA Activation is the fifth dimensional light filter on the Third Eye is dissolved. This allows us to begin receiving the Light language of the fifth dimension through our Third Eye. The Third Eye is like a receptor-prism of the Light Language that carries instructions to the body's cells about changing the physical body into a physical-etheric light body. Additional information flows into our conscious mind allowing life to be experienced multi-dimensional. Through massive light absorption our cells remember their Divine Perfection and vibrate in absolute oneness with the Immaculate Concept.

5th DNA Strand—The Meaning and Function of the Fifth Strand DNA Activation—the fifth dimensional filter on the heart chakra is dissolved. This means the information we access through our third eye is expressed through action in a loving, heartfelt way. We have the ability to heal ourselves and others, spontaneously and instantaneously as Divine Love and Truth radiate from our every cell. The 4th and 5th strands go hand in hand.

6th DNA Strand—The Meaning and Function of the Sixth Strand DNA Activation—the Light language from the sixth dimension continues to feed information to the body cells regarding transformation into a physical-etheric being. Sixth dimensional information begins to flow through our conscious mind as we plunge deeper into experiencing life multi-dimensionally. We remember HOW to control the spin of our electrons. This activates our super human abilities.....such as shapeshifting and bilocation....

7th DNA Strand—The Meaning and Function of the Seventh DNA Activation the sixth dimension light filter on the heart chakra is dissolved. Again, that ensues that the information we access through our Third Eye is expressed through action in a loving, heartfelt way. We are radiators of love's transfiguration..... we constantly transfer our perfected patterns to all life as we are ALL the SAME particles of energy. The 6th and 7th strands go hand and hand.

8th DNA Strand—The Meaning and Function of the Eighth Strand DNA Activation- The seventh dimension light filter on the Third Eye Chakra is dissolved. The Light Language of the seventh dimension feeds more information into the body cells regarding transformation into a physical-etheric being. As seventh dimensional information begins to flow into our conscious mind, we are now receiving instructions directly from the quantum Christ Realm. The Meaning and Function of the Ninth DNA Activation-The seventh dimension light filter on the Heart Chakra is dissolved. This ensures that the information we access through our Third Eye is expressed

through actions of unconditional love. Through rhythm and constancy, we are masters of our emotional body. We maintain a strong, steady and stabilized form. Our emoting frequencies are joy.....peace.....tranquility and unconditional love... able to transform other energy fields The 8th and 9th strands go hand in hand.

10th DNA Strand—The Meaning and Function of the Tenth Strand DNA Activation—your Ascension Vehicle activates. In the Seventh Dimension Activation, the North and South Poles opened to the flow of quantum Christ energy surrounding the body in a 100-ft. diameter cloud. When the 10th strand activates, what's known as the Metatron Matrix forms around the cloud containing it like a vessel so it does not dissipate. Your individual Ascension Vehicle is now completely formed. You naturally attract everything that is needed and required to fulfill the Divine Plan. Through your purity in the eternal now, you have the power to manifest instantly on the physical plane.... through thought and feeling alone.

11th DNA Strand—The Meaning and Function of the Eleventh DNA Activation—A Planetary Ascension Vehicle has also formed around Mother Earth. Now, as the 11th strand activates, lines of light connect your Individual Ascension Vehicle to mother earth's from your North Pole to Earth's North Pole and from your South Pole to Earth's South Pole. Your every thought, action, word, and feeling is being guided by your mighty I AM Presence. We simply know that we are in perfect alignment in every moment. Trusting in the Group Plan, we move forward in our daily lives as a sacred instrument of God.

12th DNA Strand—The Meaning and Function of the Twelfth DNA Activation—As the 12th strand activates, your Individual Ascension Vehicle is charged by a continuous flow of electro-magnetic energy through the poles from the Planetary Ascension Vehicle. When Mother Earth shifts, everyone connected to her through their Individual Ascension Vehicles will shift with her. We live, breathe, think, and feel as ONE, entering into a relationship of perfect love and perfect trust with every life form as we shine our radiant example of the infinite possibilities of God embodied on Earth.

#13-strand

source: http://delphian.7gen.com/13thDNA_Strand.htm

the 13th strand overlaid on the 12th strand system then permits the individual to be empowered, and self willed. The 12 are the foundation and tools, the 13th is the “Itself.” It is love as the Christ Consciousness resurrected in each individual with the potential to increase its vibratory rate to invoke universal healing.

Unlike the 12 strand system, each 13th strand is completely unique, it carries with it the 4 extra “codons” of DNA which we are seeing in the children born today. They are disease free. The 13th strand connects one from the earth plane to the God-Self, with the energy of the CHIRST as the glue or love source that assists the veils of separation to be lifted.

When working with the 13th strand, the real goal a person is seeking is to integrate the 12 strand areas of mastery they have chosen into their Spirit or Essence. When complete and in Harmony, the being has succeeded in making a leap of personal evolution, has physically integrated areas of knowledge and there will no longer be the separation of being from knowledge. It is now one. When this happens a new area of mastery comes into being.

The 13th strand is also the communicator focus. In all instances the 13th strand is the strand of love, and is designed to integrate Spirit and flesh. We all came from the same Spirit. The origin of our being is included in every single 13th strand, therefore even though 2 people might be of totally different areas of knowledge about the world, each would also be aware of their uniqueness and relation to each other as they both have the same Creator. They could then work on integrating and exchanging information, because they could relate on a higher frequency level of their being. This 13th strand of

complete love is woven throughout the 12 strands of DNA, thus imprinting the Divine Blueprint, Spirit's blueprint, the innate being of you which has stemmed from the source, the beginning, day one of creation. The Christ, the anointed spirit formed into beingness is thus resurrected, alive again within each and every being.
