... time for a New Age

be prepared for a book
that changes everyones reality

it draws you into a black hole
and finishes our age

LucidDream is the prelude to #global-awakening

from now on ... the most beautiful stories ever
... are about to happen

#magic-book
#awesome-eats-normal
#consciousness-goes-open-source

the information age was just a tool,
money just an auxiliary device, death just a disease

now comes Universe 2.0, Human 2.0
we can skip the downfall. revenge also

--
lucid dream = you get aware that you are dreaming
within a dream ... from here on ... you can controll the dream

#---------------------------------#

its about ...

what will humans do
when the transition is accomplished
when war and money are history ...
when we are free .. while we and planet earth heals ...

'its like doing the jobs
that beginn to exist in 1000 years'

... at the end of the world .. how do we live?

I document the new age

#---------------------------------#

everything that won`t extinct
everything that moves and creates

... Manual of Evolution

#---------------------------------#

what is important ... you`ll find out by yourself
it start at zeropoint: #fuck-you-all.
ends in the infinity, the zero.
truth can be encoded maximally in impact
... the golden ratio is in everyone

#---------------------------------#

in this life
i find out
how it feels
to shake-off imprint

#---------------------------------#

compose your Karma

#preview-afterword

#afterword to the alpha-Version of #LucidDream
(org. KlarTraum)
you have / will have read a book-of-impact... like in the genius movies, that
reveal with every time watching again ... connect more and more cross-links ...
its the same with this act
the book is free, source file online at http://luciddream-wave.info ...
LucidDream is open-source, may be adapted and changed by everyone ...
anyone is free to re-publish it
... the fist plan was to devolop it with underground-networks ... in order to
create a whole 'swarm' of simmilar books, by different authors ... but here and
now the underground will be skipped, it’s more important that light can light
earlier than later.

-----------------------------
a publisher is not looked for, publishers will simply print.
the information is light, therefore everything that has to happen, will happen
backwards in time... if there is revenue, it will flow into free-land for
revolution and free-of-charge print-versions of LucidDream... until money-dominion has ended
... the day when all land is free is very soon
---
press inquiries are ignored and irrelevant.
within the book, everything that has ever to been said .. is said
soon everything is self-evident.

the book calls itself alpha-version because the sorting is less in the last third ...
yet, once you reach it, you will manage the structure
the content is finished and perfect ... whatever has to be added, will ... the book
is seed of a #swarm-book
... have fun in entering freedom

########################################################################
Insert: ... the wave is coming ... no matter what ... before the last one got it

after artistic introduction, it starts at p. 84 with the #worldformula
the world formula is basis to explain evolution, metamorphosis and
immortality of human ... based on biology / physics / nature.

humanity is very soon describing a metamorphosis, that will be triggered by
swarm intelligence.
it is time, for humankind to know about DMT and Salvia Divinorum ... in
comparison with science, all secrets of life are decoded ...

#Summary-World Knowledge
DMT - the Spirit Molecule: decrypts God
Salvia Divinorum – seer’s sage: decodes creation

... afterwards, its clear that many who were not taken seriously, were right:
man is at the same time creator, the universe is not around us, the universe is
in us.

LucidDream prepares for the most important information for humanity: our
age will end very soon.
This sounds unbelievable, therefore the KlarTraum is published now .. to
receive the information, to ‘wake up’ and logically understand
this year, life on earth will flourish, so be prepared

########################################################################
the book was created within jan/feb17 ... in the first days of Feb17 the
autoress reached the news that 'the wave' is coming sooner than truth will
have time to impact.
... two days earlier, the logical derivation of immortality had been successful,
so it can't be held back longer: the information unleashes now

... who has a intuitive feeling that it could be true, can straight away use the
exit of the book:
#final-humanity, #conference-of-underground, p xxx+

there you’ll find links and knowledge about the time turn / new age, about the
world afterwards and what is important to know in this last period on titanic
it is also suggested to look into the already visible structures:

#living-human,
#species-appropriate-livestock,
#unblock-evolution
and #activism-stickers in the last thrid

#Index-Guide-World

hello world,
the next xx pages are a movie
starting with poetry-art about a #wild-way-of-life, wakens the sleeping

... it follows at pxx what you need to know about the world of today: it will fade away
why, and what music accompanies the downfall ... is explained in ≤ 10 pages

#activism, #capitalism-forecast, #recognize-the-patterns-that-create-life,
#positive-terror, #here-you-look-stupid, #cold-war-of-love, #recipe-of-revolution

this shakes, creates a dance

#fabulous-creature-in-facebook-century
#Physicist-Transition-Rainbow-Evolution
---
this is the foreword ... yes, you’re right ... xx pages prelude, afterwards the act is starting
#welcome-to-the-matrix
---
... from here on, you can continue reading the version for #fairytale-creatures and #revolutionaries

#conference
we had expected somehow for a long time
#pages
and the box in the box:
...
#Ayahuasca
the first horse-of-troja is
#Ayahuasca-DMT-the-spirit-molecule, #two-pages-for-humankind-about-dmt
... both are the fundament for #evolution-by-plants ... this expands the consciousnes

the most important to know, lies in the #black-hole of the book: the #conference-of-underground (pxx)

------------------------

#Index-Guide-Magician | #Index-Guide-Scientist

hello magician
... and everyone who knows to be awakened:
the book includes everything that is important ... beam yourself through the rabbit-hole ... and start in clouds, that interconnect your existence maximally:

#re-definition-of-a-bible (around pxx)
afterwards it gets dense, starting with the #worldformula (around pxx)
... both are the fundament for #evolution-by-plants ... this expands the consciousness

and the box in the box:
#pages-for-humankind-about-Salvia-Divinorum
... because since some weeks its used to derive 'immortality' ... it proves what we had expected somehow for a long time

#worldformula

------------------------

guide through the folded rooms/ last third

... where are we now, have a break

the last topic was the #Evolution-of-God in the #black-hole ... here we have arrived the end of a zoom setting ... #Hawking-kisses-Creator

feels like ... everything is soon included ...

... suddenly a #just-because appears ... here and now, #Intuition... what unfolds ...

#Emotion
silence as well as escalation, crying and laughing, playgrounds for violence as well as the feeling of freedom gets space

... leads to life in the natur: #species-appropriate-livestock: a picture-book telling about the wonderlands, that already exist ... dwelling in a spaceship is so ingenious

then it's time to #shake-off-evolution-blockades, terms need to be trashed or re-defined
... what is our problem with ... #suicide, #egoist, #offenders... something want's to pulverize judgement

------------------------

... the #zero-point also wanted to have its own chapter

#workshop-in-magic, #dreams-and-DMT, #resonance and #re-Inkarnation e.g. in #demand-for-completeness...

#we-came-to-dance vibes into
#not-everything-needs-in-the-book, #understand-physics

this includes also #MurphysLaw ... it said that everything that can go wrong ...
will go wrong ...
now we formulated the contra-law: 'everything will happen and it will be gorgeous'
the seeked state is also called '#Equilibrium=Balance'

---

... in the very last end of the book, the pages that had been removed follow there, because 300 pages are already a task

---

... and in the end the book fulfills its meaning without aliens and conspiracy-theories
... both topics inherit lot of truth, yet we can neglect them for our jump in evolution

How does a black hole feel?
---
Black holes have a fascination.
The wave-function of a particle
is opposed to an infinitely high potential.
The curvature of space-time and density is infinite:
nothing escapes the event horizon.

However, the # quantum natures-of-things
brings magic into the game.
For every particle is wave and particle at the same time,
Has the possibility to be anywhere else in the universe.

That's why black holes 'shrink' within a long time -
The escaping energy is called Hawking radiation.

This is how the infinity of escapes the zero.
Stephen Hawking supplies a part of the world-formula.

Quantum physics turns the logic upside down and describes,
how something impossible can be possible.

------------------------------------------

#quantum-space-is-magic
Matter as well as energy is quantized in smallest units ...

#world-formula-SMS

---
The world-formula ... that is what mankind is looking for
Even before mathematics called it so.
It explains everything, everything derives from it.

The meaning of life, why we are there,
what was before the Big Bang
and comes after infinity

So far it has only been approached
... we feel it is not far

-----------------------------------------------

What is life? ... Fractals ... remember the images of the trees and the nested
patterns you know
Every structure that creates itself grows ... the big ... in small, the small in the
big ... means life.

And life works through three forms: the circle, the spiral and the torus - the
perfect primal structures. A torus is an apple, a tree, the magnetic field of the
earth ... a wormhole in the universe ... the bio-energy-field of man.

Growing fractals form with infinitely small connections
... the circle, the spiral, the torus ... the life

... lo and behold, the darkness creates the light...
The darkness is the nothing, the 0
The light is the infinity in all colors

The infinity arises from a variation of the zero
This is the world-formula

No boundary conditions
Every child understands it, is born through it

#world-formula-SMS-part2
... and here is Pandora's box
Death produces life
It is eating and being eaten in the fractal soup

... but as soon as the fractal-structure forms circles, spirals and a torus
They create themselves by themselves ... forever stable living

Consciousness creates matter to evolve
... and the best thing about it: we can become something, which exists infinitely

... not only the brain connections can grow fractally-like ...
... even wings still fit in DaVinci's drawing
a human perfectly in a circle
the symmetry of three lines

two branches with five small ones
two roots with five small ones

trees, mushrooms and a 'sponge organism' in the sea already taste it ... they still live ...
from the seed to the present ... ten thousand of years

... our world-lines are from the perspective of the trees
only short-lived patterns in square systems
nothing alive

... everything else, are arbitrary arrangements, that will die out

-------------------------------
#world-formula-SMS-part2

but as soon as our border zones, our surface,
... our fine- and coarse structure
shapes ... fractals, circles, spirals, torus
... the Pandora's box remains open:

Life is never lost. It transforms itself

when there were no words yet?

'I regard matter as a derivative of consciousness'

Consciousness creates matter to evolve
Space and time are only auxiliary factors of consciousness,
Your brain is a filter for this reality.
---

#consciousness-and-dark-matter
the superimposed consciousness of all life in the universe (#global-consciousness) could be the quantum space of infinite possibilities that lies in the dark-matter / dark-energy.

Dark-Matter and Dark-Energy are not part of the visible / measurable matter and energy known to us, but represent 95% of the universe. Physicists / astronomers assume their existence because the attraction of the galaxies, the rate of expansion of the universe and the movement of the visible matter can not be explained by the matter and energy known to us – it’s origin is 'dark'.

#Science-and-New-Age
what has been captured in the #world-formula-SMS with circle, spiral, torus, can be found in the human memory as #sacred-geometry... the original geometries and patterns of nature were already known before the language was found.

the mainstream science ignores the term #sacred-geometry because of the spiritual origin, also 'nature' is not scientifically recorded... there are almost none publications on #sacred-geometry, Wikipedia associates with the 'faith in God / Spirituality' (as in Jan2017) ... therefore the curricula of the natural sciences in 2017, still do not contain a description of the all-recurring patterns of nature. Every child can understand, can see, can draw.

in this work, # sacred-geometry is sometimes referred to as #nature-geometry. nothing has to be holy or secret anymore

#science-and-ignorance
f.e. the physicist Nassim Haramein, who deals physically intensively with the nature-geometry and the consequent explanation for our world... however, he is not taken seriously in mainstream-science, fails to meet the 'demands of science' ... if a few explanations are nonsense, all other research / approaches by the same author are ignored.

this is how science buries the most important research area at all: what is life? what is consciousness?

#paradigms-of-science
in the course of the research into the paradigm-battle between science and 'pseudo-science', a 'banned-TED-Talk': [youtube.com/watch?v=JKHUaNAXsTg](https://www.youtube.com/watch?v=JKHUaNAXsTg).

the 'perfection', which can be found everywhere in nature, is encoded in the golden section phi or the Fibonacci number series, which describe the same thing. Phi is not a godly number its just the logical recording of reproduction under self-preservation (= basic ingredient for life). The Fibonacci sequence simply simply adds the last two numbers, which in turn contained the last two numbers.

among the many fascinating qualities of the golden section, one shall be picked out: phi can be represented as a single number only from ones ... ones that reproduce themselves.

it is the only proportion that reflects the whole in proportion to each other, it indicates the fractal structure of the universe.

Image: the number phi as a fraction series consisting only of 1 - numbers

#scientifically-abolished
#science-blocks-evolution
through my physics studies, I know what it means to work according to the 'demands-of-science'... this act does not claim to be a scientific work, otherwise it could not be what it is - a #impact-book, using links between encompassing connections... what is true will work, whether forward or backward in time.

have the courage to use your feelings and not fail at the borders of our age.

the definition by universities
the claim to be scientifically,
buried #fractal-way-of-proof:
learning by self-similar systems,
which prove retroactively.

#truth is resonant frequency in the quantum space of all possibilities

all that is truth is a resonance frequency in #global-consciousness... a harmonious overlay of information as a wave, which is not chaos, but perfect patterns ... is therefore true,... an idea was never your idea ... an information that had been there for a long time - just not yet in your reality.

discoveries and breakthroughs often appeared on the planet several times at the same time. #networked-intelligence, #fractal-world-lines \cite{Vernetzte-Intelligenz}
words and hashtags (#) are used in this work not as argument, but as stylistic device
... to link images in your head
to fold connections of relationships

short-story-of-long-ignorance

some things prove retroactively in time. It were the alchemists / mystics, who predicted the basic building blocks of the matter for quarks, neutrons, protons, antimateries, spin ... decades before the models of the physicists. The research of Besant's and Leadbeater's (Occult Chemistry, 1908) was only scientifically investigated in 1995 and verified in many ways as correct.

Because the oldest published work, which correctly predicted the elements and characteristics of our material, did not fit into the model... it was ignored for a century and is still forgotten. As can be seen in the pictures, the geometry for the construction of matter came from the #sacred-geometry.

#interstop-world-formula

the 'world formula' is holistic = all-in ... it contains and describes everything

so it will not have been discovered by a single genius, with the derivations and formulas of the most complex string-quantum-math-realms...

no, it is in everyone, otherwise it would not be the world formula

it can be coded, folded and unfolded

----------------------------------------

if the world formula is the world formula
it can be applied to everything

Gravitation is something like love, shapes the space, the time... was triggered by the global consciousness = quantum space of all possibilities.

Any information is stored and forgotten at the same time.
... death takes us only all memory ... over and over again ... that's why we need so long to remember... as a connected consciousness to have memories ...

We are many small observers who trigger the measurement process for our reality
,'everything that vibes is ego' say the yogis ...

I measure - in the quantum space - I create the reality

'You are the reflection of what it is
... so what if you change?'

#consciousness-and-gravity

Physicists want to explore the dark matter with gravitational waves. [cite{gw1},
[cite{gw2}] ... when consciousness can change gravitation it is proven, what so many assume. Who has ever read about hovering monks, laughs now

All matter is connected by gravitational waves
[cite{wiki:gravitational_wave}

... and this is also found within the whole..

'All that you seek is in you.'
and the context unfolds the context

the universe in the nutshell

'BigBang is a psycadelic state'

One could also say logic has created the universe... it is from the moment, absolutely logical, where everyone understands everything ... the moment will come - even without the detour via conceptual understanding ... and until then there is the time / our age ... so long it took in quantum space to become self-aware. as a whole.

... #we-are-one-becomes-formula

#the-generatrix-of-the-world-formula

John, one of the bible writers, has long crossed long enough fasting the desert, to have access to primordial truths of global consciousness.

'In the beginning was the word
and the word was with god
and the word was god' (John 1,1)

This is the oldest definition of consciousness and quantum superposition.

Sounds like someone who has just woken up and forgot everything ... I think, I am... it can obviously form words / impulses, which it hears / feels in itself.

It is time that mankind knows what DMT is

Once someone said:
'there will be someone, who can describe it'

DMT is a molecule, a body's own neurotransmitter. Every human being and mammal can produce it / trigger it, it is in many plants. In the embryo, the cells produce DMT during the first weeks of life, as well as living beings at death or near-death, in dreams, meditation,

It activates the pineal gland exactly in the middle of the brain: your transmitter. DMT is also called

The fact that the substance is illegal, shows how much our system likes to stay sick.

In some countries it is liberalized for addiction therapy, for medicinal purposes or religious purposes.

It is the oldest medicine of mankind, known in the virgin forests of the tribes as Ayahuasca, the Maya called it

DMT is not accidentally referred to as the 'essence of the gods'. It is the primordial state / hyperspace from which we origin - in which we go

The substance that creates our reality is called Oxygen... if we stop breathing
...we are in the DMT-Space.

The fish who stopped breathing its air - the water, developed the land creatures
...the next zoom level in which life can happen

...that you do not have to die for DMT, you know at least since today

Why no one knows DMT?
because it is not a party drug, you should be 'sober', fast before

since ancient times, DMT has been intensified with so-called MAO inhibitors - an active substance of enzymes that also delays the fast-degradation of DMT in the body.

The combination of MAO inhibitors and the drugs of our industrial-society can be fatal
(never combine MAO-inhibitors with alcohol, extasy, amphetamin, opiates, antidepressants, ritalin ... chemical uppers / downers ... also some food, read wiki)

#the-other-world....

(... for that reason, all the great spirits have fasted for so long, went through the desert ... after a maximum of five days in a dark cave, the body releases so much DMT that one is in #the-other-world for hours)

DMT is

Why no one knows DMT?

The next pages are folded poetry ... a crazy attempt to get the DMT-Space on minimal pages

the plan about the 2 pages was, to be scaled at a second zoom level to about 10 pages ... and first passed 'on the quiet' ... a gift for the large critical mass of people who deal with substances that increase consciousness ... now it has become the core piece of this book: the Trojan horse.

because in the course of the composition of this book it became clear, that the world formula, the evolution of mankind, and consciousness can't be explained if DMT is concealed. All or nothing.

DMT is anything but hallucination. Wake up ... or die again ... Even the one who has never taken drugs will produce the only true drug at the end of his life ... the one of swarm-intellect.

yes, I am selling my soul for this Revolution
... I am Muse, I am fairy, I am your idea ... we are many
because I owe it to justice. thousands who are not allowed to have this genial life like me, but have to be ripped out every day by the alarm clock and have to go to work ... all the painful lives in oppression ... not to mention the truly suffering in this world. It's enough. It ends.

Pangea was the name of the continent when everything was still one continent ...

---

#Pineal-Gland
lies exactly in the middle of your brain, produces DMT

it has shrunk in the course of human history, because we hardly use it,

our rhythm does not correspond to natural life who uses his pineal gland rarely, grows older

the substance Fluroid (additive in most toothpastas or fast-food) as well as other industrial products make the pineal gland harden ... this can be detoxified

the pineal gland is associated with the Third eye - the point between closed eyes

#afterword-to-two-pages-about-DMT

#science-by-dmt
since more than one year I am researching with and about DMT ... in this work
I try to fold the incomprehensible into rhetoric ...
the fine structure of things ... the nature of life and the consciousness behind it ...
my whole physics study expanded to the field of research, expanded to
biology, anatomy, healing ...
... a sunny morning, a biologist past by ... he participated in my DMT-research ...
together we described the fine structure of liquids, solids, rocks, the change of
the structure of the space through trees, magnetic field lines or cats. ...
#fascinating

#critical-mass-dmt
after four months of research with DMT, I discovered that there is a critical
mass DMT ...
from a certain amount, is what happens
a even more amazing world ... it’s where you see the same with eyes closed as
with eyes open... more in #dmt-deep-space

-------------------------------------

#DMT-Changa-and-Ayahuasca

when I report about #DMT, I refer to the combination with MAO-inhibitors,
same as in the #ancient-soup of aboriginal tribes

#dmt ≡ #changa ≡ #ayahuasca

#Changa-aftereffect
After 20 - 60 minutes you are awake and clear back in our reality - impressive memories transform gently into joy and the drive 'to do something'... over hours are human senses are sharper, the rest of the day is efficient and focused

#Changa
there is a 'western variant of Ayahuasca' – called Changa. It is Combination of MAO inhibitors with crystalline DMT as a herbal mixture, Changa is smoked or vaporized, is active for about 30 min.

#Changa is the short-term variant of Ayahuasca, you do not need to fast for days, nor is there nausea

#dmt-without-mao
if DMT is consumed without MAO-inhibitors, its duration is shorter, it shows less intensively the outer world, more the inner world...

#Ayahuasca
the rainforest variation #Ayahuasca is a day-long drink made from two ingredients: e.g. Liane (contains MAO-inhibitor) + tree bark (contains DMT)
Aya-huasca means souls' vine
Ayahuasca trips last 5-12 hours, you may have to air your belly and get diarrhea, it cleans the body and then the trip starts...

Ayahuasca is medicine because it provides your body with information, there are many things that can cure cancer ..., Ayahuasca can also one finds in internet many 'Ayahuasca for the Village – Recipes', due to the tradition of consuming DMT in ceremonies with the whole village

... the 'shaman' is the one who shares ...

########################################################

#DMT-dosage
there are big differences depending on how much DMT ...
the #two-pages-DMT-for-humanity contain impressions from all variants of dosage, except 5-Meo-DMT

•... 'homeopathic dosage' - the ingredients (root cortex / liana / seed) are taken in capsules ... half a day eat little or nothing ... a little dmt reminds the body of lives fine-structure, stimulates #healing... one notices it only very lightly, it sharpens the senses, the nature and colors shine more, it brings clarity

•... low dosage combined with MAO inhibitors makes the world visible as it is. The filters in your brain are falling. The visual examination of the fine-structure of things / life ... parallel to the inner meditative worlds when you close your eyes

•... higher dosage is something real amazing: #dmt-deep-space ... you dismantle the space, you, you are everywhere, every question answers ... you come back and feel fit

•... and then there is the 20-fold potentated version of DMT ... is called # 5-Meo-DMT, is proven to be released in near-death experiences from the pineal gland, is also called 'God Molecule'

5-Meo-DMT is much more common in the Amazon as 'Yopo' than 'Aya' ...
information-source DMT, 5-Meo-DMT: http://enteogenic.podomatic.com

#dmt-is-different
unlike most substances, the body builds is no tolerance to #dmt ... every time same or even higher effect ... because it is an endogenous substance every-body can deal with it ...
the vegetable raw materials for Ayahuasca are legal in germany ... in more and more countries Ayahuasca is deleted from the 'prohibited' substances

... researchers ask why it is omi-present ... why it can be found everywhere in nature.
DMT is not a drug – it is messenger of your body, a hormone

-------------------------------------------------------------------------------------------------------------------------------------

#dmt-and-science
at medium dosage ... sluggish, meditative condition ... to move or keep eyes open is exhausting ... one wants to build a nest, a blanket, warmth, resting, ...

... with a somewhat lower dosage and researcher's curiosity, one can, however, also move, review all physics / biology / medicine and microscope science
unambiguously... just as well as check the claims of the 'esotherik' regarding healing-stones, aura whatever ...

you can see the fine-structure and types of action in everything. DMT decrypts everything that human can know.

in an apartment with industrial-produced objects hardly anything moves ... in you and on your skin ... because it moves what lives ... go into the nature or within reach of trees, plants, animals ... the #sacred-geometry and the artworks they instantly map is #amazing

interesting, the analogue to #Heisenbergs-Uncertainty-Principle of quantum physics ... when the measuring station becomes more still ... the variation / variety of what you measure becomes larger ... if your glance is blurred, you see the 'hyperspace', if you sharpen your view, you see fine-structure

#Link-Dosage: in the last third, under #Demand-for-Completeness, is found:
#DMT-plants-extraction-and-travel-hints

#Ayahuasca-longterm-effect
scientists have done research on long-term Ayahuasca drinkers: 'a more stable personality, better memory and better integration into the social environment than in the control group'. ... it followed the legalisation, the removal from the list of hallucinogenic drugs in many countries ...
in the US it is free-to-use for 'religious purposes', in Germany Ayahuasca is legal cite\(\text{wiki:ayahuasca, Jan 2017}\)

... that is incredible, that must be further researched

###

#DMT-and-the-drug-helpline
"... anyone here, who knows about DMT? It can't be, that there is something that I could unconditionally recommend to anyone ... something that frees from all addictions, that heals ... does not cause dependency ... that is just good?"

.. with these words, I stormed into the 'psychadelic ambulance' during a festival in 2016
... there were volunteer drug helpers and addiction therapists.

Someone there knew very well about DMT

my statement was not negated but supplemented

you should have experience with a variety of substances that increase your consciousness, in order to not-be-overwhelmed ...

there is a scientific congress with focus on psychoactive substances, with intensified studies about DMT, it is called Entheo-Science and Mind-Foundation

N, N, -DMT is the molecule of consciousness, there is a double potent version of DMT and it needs only 1/6 of the amount, its 5-Meo-DMT also called 'the God molecule' and acts more mentally (=the entirely knowledge of everything)

It is a 'reconnection to God'
Can be described in two words: Everything. Now.
The Hollywood movie 'Lucy' describes # 5-Meo-DMT I should watch it.

there was nothing more to say
#Lucy-and-DMT

note: i use #DMT as a term-cloud for N,N,-DMT and 5-Meo-DMT, I have no experience with the latter

---------------------------------

#Lucy-the-Movie
#Lucy-and-Evolution
... so let's watch the film 'Lucy' (2014).
Lucy ala Scarlett Johnson gets very much from a drug that has the same properties as 5-Meo-DMT ... it enables the usage of the whole brain capacity,
develops super-abilities, she becomes 'God', explains the universe, time and life
---
Michelangelos ceiling art, where the finger of God touches the finger of Adam is adapted in the last movie scene

... Lucy and her ancestor the monkey-simmilar 'Lucy', touches fingers. Hence the name, archaeologists call one of the oldest female skeleton 'Lucy': 3.2 million years, counts as member of 'the first family'.

the scientific context for evolution and DMT is provided by Professor Norman ala Morgan Freemann.

... and everyone considers it to be cinema ...
the most successful French film is more than cinema.

the movie quotes extend the human consciousness

thank you filmmakers and inspirators for #epic-movies

note: that people only use 10% brain-capacity is a 'myth' ... the film uses it as stylistic method to describe our evolutionary stage

#Lucy-Movie-Quotes
#unleash-evolution

Lucy: .. once the brain reaches twenty percent it opens up and expands the rest, there are no more obstacles. They fall away like dominoes.

I'm colonizing my own brain.

I feel everything.

Space. The air. The vibrations. The people. I can feel the gravity. I can feel the rotation of the earth. The heat leaving my body. The blood in my veins. I can feel my brain. The deepest parts of my memory.

I don't feel pain, fear, desire. It's like all things that make us human are fading away. It's like the less human I feel, all this knowledge about everything, quantum physics, applied mathematics, the infinite capacity of the cell's nucleus, they're all exploding inside my brain.

Prof. Norman: If you think about the very nature of life. I mean, from the very beginning. The development of the first cell divided into two cells. This whole purpose of life has been to pass on what was learned. There is no higher purpose.

So, if you're asking me what to do with all this knowledge you're accumulating, I'd say, pass it on. Just like any simple cell going through time.

There are more connections in the human body than there are stars in the galaxy. We possess a gigantic network of information to which we have almost no access.

Prof. Norman: For primitive beings like us, life seems to have only one single purpose: gaining time. And it is going through time that seems to be also the only real purpose of each of the cells in our bodies.

To achieve that aim, the mass of the cells that make up earthworms and human beings has only two solutions: Be immortal, or to reproduce.

If its habitat is not sufficiently favorable or nurturing, the cell will choose immortality. In other words, self-sufficiency and self-management.

...on the other hand, if the habitat is favorable, they will choose to reproduce. (Images reproduction man / mammal by sex-act and birth)

...that way, when they die, they hand down essential information and knowledge to the next cell. Which hands it down to the next cell and so on.

Thus knowledge and learning are handed down through time.

Lucy: One plus one equals two. That's all we've learned, but one plus one has never equaled two.
There are, in fact, no numbers and no letters. We've codified our existence to bring it down to human size to make it comprehensible. We've created a scale so that we can forget its unfathomable scale.

Time is the only true unit of measure. It gives proof to the existence of matter. Without time, we don't exist.

DMT is e.g. in higher amounts to be found in the roots of 'Acacia confusa'... in Tawain, the tree is very common and called 相思樹 : The Tree Thinking of Each Other Tree

DMT triggers euphoria and clarity ... you will not forget the pure state of existence, it activates change ... 'as you are meant to be'

#dmt-is-information
because DMT = information, everything that can be achieved with DMT, can
also be achieved with information

No one has to take DMT, it only shortens the evolution time, provides the
activation energy ... if you can remember, how it feels, can trigger the body-
own-production ... can develop everything and heal what you only think

#produce-DMT-in-the-body

your body produces DMT in meditation, through breathing technique (#
youtube-dmt-breath-technique, # holotropic-breathing), in dreams ... it can
also be triggered simply by 'will'

like Serotonin, DMT is triggered by information ... the more knowledge is in
your brain ...
even the reading of this book is therefore psycho-active :)

#learn-from-Savonts
look at Wikipedia’s list of #savons. there all people in the world listed, with
super-abilities. They have nothing to do with DMT, but rather with super-
heroes - because their brain works different, because some brain-filters do not
work like ours.

Then you know what you can also become, what you can practice in the dmt-
space: generate electricity by power of hands, get along naked in the Arctic for
days, having a photographic memory, enormous musical or mathematical
skills ... a girl can see organs ... some get Savonts by accidents like Jason
Padgett ... since his head-injury, he can see and draw fractals perfectly ....
#Savonts are often #Autists - most valuable variations of human existence /
portals for evolution ... they are perfect in their world ... we have only been
blind to their world

.. my heart is beating, I've been working on this book since New Year's Eve 2017 ...

27 days now, before it was only a 50-page sketch, a few quotes ... it had to wait, because I first had to expand my trailer and the paradise around me,... in three days the sonic wall was broken-through, from 50 to 500 pages while the world celebrated the turn of the year ... five days of fasting, three days of recording, three weeks of sorting, folding ... within three months the beta version will be ready. Then comes the the thousandfold spreading in networks. (#Science-of-Impact, #Swarm-Book)

... for three weeks, I have been crying almost every day, screaming, laughing ... impressed by the incredible dense of human future that folds into my space. #Emotion has now also a chapter. everything, interlaced logical. clear.

my mac-books are luckily still working, I have already a hundredfold spread the work, so that my trailer could burn and it would not be worlds-end ... lol

Let’s talk about ... #dmt-deep-space – the swarm-intelligence above us

#god-is-swarm-intelligence

... the deep DMT-space is much deeper and more revealing than it can be indicated with #logbook-entries or #two-pages-about-DMT ... there misses still a bit of understanding about insects

it is the secret of insects... knowing exactly how to live ... without being educated or cared for...

the deep DMT-space is the essence of a swarm indigenous ... who knows exactly for how long it can think... what development of life and universe was

about ... that knows, how it felt, before there have been human consciousness ...

firstly all the mechanics of space had to been filled with life

... and if you want to find further and further the structure of the structure, then the global consciousness will somehow search itself ... through you ... through all that join the deep DMT-space, alive or dead ...

It finds its similarity to the mechanics of insects, spiders, snakes ... 'punk-steam-suddenly-space-bending' and 'fractal-eating-shapes'.
(see youtube: moving fractals, mandelbulb, shpongle music videos)

... we become functional of life, can understand the mechanics of swarm intelligence #global-consciousness ...

#DMT shortens the time for evoution

----------

... thousands of creatures wear the DMT molecule as a Tatoo, I meet Shamans from the primordial forests ... who go to the west to cook Ayahuasca for us ... who understands, speaks about the change of consciousness

----------

the biological form of our existence

this is true, but no one can imagine here something

How to explain the relationship between our reality and the swarm intelligence?

It's like a mixture of Matrix and Avatar. The swarm-intelligence-universe is symbiont, the bodies are host: our Avatar. The brain in the torus-human in a measuring station. We are transmitters, connected with everything. We use life and death to learn.

Man is like the mayfly, like the mosquitoes, dies a thousand times ... until it understands that it is

at the same time the swarm. Space and time and body only auxiliary variables

#superfoods are not only commercial goods - it is also the plants which you almost stumble over: the nettle, dandelion, gierch and birch in our latitudes ...

The human being can run long on #information-fasting: herbs, berries, oil, nuts, honey, raw food - as much as fit into a mouth as a meal, instead of the size of your stomach. #Fractal-fasting: your body gets a thousand times the best information, rejects everything that slags, it detoxifies, heals

Insects and humans are the only two species that are 'left over' on this planet ... all other beasts of the wild have a dwindling population ... the insect is ahead of man's evolution for 300 million of years

---

The fictional PhD Dr. Hellstrom, gives reflected and daring insights to the realm of insects.

he predicted the insect as possibly only surviving species on planet because of its efficiency.

- the Insect

---

'with a 300 million year headstart on man, the insect begins to develop his powers. he dominates the earth and exploits his dominion well. with each new generation come new experiments in shape and function. transforming him into spectres as limitless as the imagination of the insane. ... he and his environment became one'

'without the burden of intellect, emotion or individual identity, these creatures were given something we weren’t: the knowledge that they must work together to create the elusive utopia - the perfect society'

'the harvester ant took the first primitive step towards agriculture. gathering seeds during periods of abundance below ground. where they would provide food for the colony during the months of drought.'

'compared with Man, we have to admit that the insect does not display what we can describe as intelligence. But don't feel too proud about that, because where there is no intelligence, there is also no stupidity'

'In fighting the insect we have killed ourselves, polluted our water, poisoned our wildlife, permeated our own flesh with deadly toxins. The insect becomes immune, and we are poisoned. In fighting with superior intellect, we have outsmarted ourselves'

---

'the living prototype of the computer was designed by nature herself. long before man ... the termite mound... one of the first experiments in social order.... moving through the hidden circuits, a thousand tiny particles of information, organise themselves into a form of indisputable logic. tiny mushrooms are cultivated to supply a never ending supply of food'
'his brain is without a evaluated power. Is has no capacity to reason or hesitate before reacting. Without mans burden to injecting emotion into what he sees... the insect reacts instantaneously. without regret, without regard for any but himself. rather like a primitive computer, able to respond to information at the flick of a switch'

'they come into this world possessing all the knowledge they need for an entire lifetime. none will teach them. none will shelter.

programmed from birth to death, each has inherited the total sum of 300 million years experience. ... he can pull an object a hundred times his weight. jump a distance 50 times his size.'

'when the predators came, he was nowhere to be found ... so artistic his methods of deception, that they would crawl on this body in the very search for prey"

'of the billions of living things on Earth, only Man ponders his existence. His questions lead to torment, for he is unable to accept, as the insects do, that life's only purpose is life itself. '

'... along with one of the oldest souls I know ...

#SwarmIntelligence-is-Victory

but the error, should not shrink what he has done for humanity: everyone can imagine something about 'Evolution'. Thank you Darwin ... in the end he was even right, referring to the whole: the stronger was the unity which is about to dismantle from its cocoon

... from this moment on... you form an indestructible unit ...
the insects did long before .... however without empathy ... where is here the logic-loop?
it is, where everyone can decide for himself, whether he is empathic or the opposite. Insects need no empathy, they do not question their actions anyway.

Empathy is the threshold, which at the very least frees the individuals to become swarm-indigenous ...

#animals-are-space-filling
animals are the most beautiful 'space-fillers', the human being is a circle.
Animals also have torus shape and consist of fractal-organic-life.

the last page: microscope images of substances, is one of the pages that had been in struggle with itself, whether it should be in the book and whether at this position, here we have life and death on one page ...

heroin, cocaine, speed, ketamine can contribute to addiction, damage your life patterns, drive you forever into madness ...

but the images decrypt information

everything that has a fractal-organic-fine structure, points to living information ...

anything that has hard inner or outer edges, linear, hardened structures is not to consume at all or only with caution

not all chemically generated substances are harmful, so it is with LSD ...
... it generates no addiction behavior, reveals understanding... but can also trigger psychoses ... a 'trip sitter' and information is recommended

#drugs-and-me

PS: the most beautiful tip I ever heard about drugs ... came from a drug-therapist... if you're done with DMT 'what finishes' ... then you only need 4 times a year to take drugs:
- at HolyNight MDMA
- in the spring a nature mushroom-trip experience
- in the summer a trip (LSD) on a Psytrance / GOA Festival
- in autumn: 5-MeO-DMT - as a re-connection to God

and here it recurs to me: History-of-Creation: Mission to Adam: Give the animals and plant names ... lol, that is it ... we have given chosen names, but a name is only a name, if it is fullfilled with meaning and effect.

... we have labeled the plants, organics and substances, but the description of their effect has been neglected and forbidden ... man was only the beginning. God has disappeared, waiting as a 'whistling idea' ... to get started with the eighth day of creation
#god-is-whistleblower

at present, only our industrial production and our toxified environment keeps us in the fog... instead of plants and herbs, we treat our bodies with chemical substances and addictions that cause illness ... otherwise, we can de-toxify, practice to transform our DNA, re-develop reality, upgrade physics ... play God... read the Anastasia stories and ask yourself, whether that is really just a story

Anastasia, a indigenous woman of the Siberian taiga, is not only capable of super-powers, she also manages teleportation and adaptation of all surrounding nature ... and explains how it works. emphasizes she is just a human being living in forest .... as a reaction, schools with 'paranormal' children arise .... in Russia, a movement is triggered

it is time
that mankind knows what Salvia Divinorum is
Salvia Divinorum is the clearest information of nature that we live in a fractal-enfolded-multiverse, where space and time are relative.

...I'm so excited about Stephen Hawkings reply to this...
oh yes, he already has:
#Quantum-Creation and #M-Theory

...next we compare Hawking's hyperspace theories and trip-reports of Salvia Divinorum

---

there are no physical side effects or counter-indications, it is used like DMT therapeutically for the relief of addictions,\cite{book:hawking encyclopedia}
Salvia Divinorum was long legal

--------------------------------------

#Hawking-M-Theory
...from the Magazine 'Focus-Wissen'

#Quantum-Gravity-and-M-Theory
"the physicist {Stephen Hawking] turned to a special kind of quantum-gravitation, the so-called M theory. The name stands for membrane, mother (of all theories), magic, mystery, or matrix. It is derived from string-theory, describing particles describe as mini- filiform structures of 10^-33 (one millionth of a billionth of a billionth of a millimeter) centimeters that vibrate like the string of a instrument. But their equations yield a space-time with ten spatial dimensions and one time-dimension, which goes far beyond the intimate three dimensions of our cosmos. The additional dimensions should be folded in a space of the size of a string. Such an invisibly tiny six-dimensional-ball would be attached to every space-point of the cosmos. Big bang would haved unfolded only four dimensions.

their cosmos is populated by higher-dimensional structures, such as oscillating two-dimensional membranes, called 'Branen' by the cosmologists. For them, the third dimension would be a 'hyperspace', in which many of the small frisbee-slices could fly around without ever meeting each other. Similarly, 3-D clumps could drift through a four-dimensional space and so on.'

#Quantum-Creation
'perhaps our whole universe is nothing but a big 3-D-Bran floating in a four-dimensional hyperspace. And maybe it's in it not alone. the quantum mechanics allows, that seemingly out of the nothing Branes jump out and disappear again.

'Such a Quantum-Creation is similar to the formation of steam bubbles in boiling water,' says Hawking, 'some collapse again, others expand as we did in our universe'. Thus other cosmoses could arise infinitely, each with its own physical laws. Like islands in an ocean they lie in the multiversum. For the coalesced there are 10^500 solutions, each of which may describe its own universe. "

... having a nice Salvia trip?

here follow impressive insights from the dmt-nexus.me forum

https://www.dmt-nexus.me/forum/default.aspx?g=posts&m=294309

there they have researched for years, what we can only decipher together ...

'in my experiences with Salvia there is a recurring moment early in the experience. The 'Oh, right, this part again' bit. I call it 'the swamp', and for some people they just fly over it or take another route altogether and just blast right off. I always, always have a strong thought in there along the lines of 'WHY did I put myself here again? Surely other people don’t go through this?'

For me there's a stage which is almost exactly the same every time, a point where I begin to hive and split into a multitude, and all of my senses and thoughts and memories are cross-wired. The walls are memories, my body is splitting into a 2D bristling fractal but I'm also my car from 1988, voices and prickling, bristling, hot hiving somatic dismantling. It's like I'm experiencing somehow every single piece of my ego, all of my memories and psyche and understandings swirling amongst my cells - I have a problem inhabiting the 'experiencer's seat', which is the true nature of ego death - leaving behind that hellish somatic swamp in favor of a higher seat in which you can 'watch' it from above by letting go of it all - leaving it all below.

[... ] I meditated going into Salvia country for an hour. There was a frightening moment when I realized, 'I don't want to be here - I want to go back' but I didn't know what 'back' was or what I used to be. I had no memory of smoking salvia or even being a human. All I knew was that, at some point, somehow coming into this new form, I changed, and a door shut behind me, and now I'm in. This was all I needed - it was perfect for me, in fact. I immediately let go and was washed into a deep cosmic stream.

----------------------------------------------

#how-to-explore-portal-of-god
#Salvia-Universe-Knowledge
be prepared to just ACCEPT. That's my biggest advice for having a positive experience - and there is definitely tremendous positivity available with this plant. Accept whatever happens and welcome it. It may feel like YOU are being brought into ITS realm but also remember that what you're exploring is also your own mind's experience. Bring a deep state of warm acceptance to whatever the plant has to show you, however strange or somehow traumatic it might be. It's okay to be nervous. Once the trip reaches a certain point that won't matter anymore - you're in a new space which demands your attention.

I wish you the best of luck in your journeys. I look forward to hearing back about what you discover!' (bemeda, 2011)
‘doesn't it seem to loop and/or fold itself endlessly into some sort of timeless continuum, whereby past-present-future are one phenomenon?’ (Rising Spirit, 2011)

to get into the multi-dimensional space, let the ego go, there is a point of 'nothing' behind your eyes / behind you're awareness:

'there seems to be a 'hole' in the back (or center?) of the mind, in the middle of this primal awareness. Try focusing on the nothingness behind your eyes (or awareness). Target and narrow in on the infinite point of being, letting everything else fall away. Let go of everything. Beyond the singular point of consciousness, I feel, lies ego-death and the multi-dimensional space.' (MySmelf, 2011)

that all space-creatures are up in arms, like the animals foreseeing a storm ... pawing a with the hoofs, drumming ... while being so glad about it ... we want to get started ... but stop, there was still something that holds us back ... not yet now ... we are not ready ... true, myself would love to see a beloved again ... carry on with construction-plans for my trailer in the other reality ... and the others also had something to do ... harrrr ... but soon ... very soon

... it asks me if I could not have been God? ... because he can not be found ... I laughed and deflected, said there must be someone else ... understood the echo that 'god' has left in space

most striking was a strong longing for the information of Salvia Divinorum ... not from me, but from all the consciousness of nature ...

#dmt-deep-space
but what was really no longer 'normal' was, that the deep-dmt-space had not stopped after hours ... shortly afterwards it was clear to me that it would not stop anymore ... unless I died ... or Salvia ... Salvia longing and the knowledge that you come back ... and I laughed, how could it have been otherwise, then I'm just dying on a sunny Friday afternoon .... I only want to clean my trailer ... everything should be nice ... and with each further hour it became clear that it is now slowly leaving ... around midnight I was back in 4D normal world.

the call for Salvia in the DMT-Space provides the instruction for an experiment: what happens if you combine deep-DMT-Space experience with Salvia-Divinorum?

... in the DMT-Space, you are connected with all swarm intelligence, you see the perfection and structure of things, maximum-multi-layer perception and then the jump into the black hole?
... with the key: release-ego

combining Salvia with DMT is a YES to the question: 'couldn’t you have been God? ’ ... one faces the evolutionary wish ... go through the black hole, try not to forget and let everyone learn ...
both can be combined without any problems, both substances have a healing effect on many body-systems

... yet a companion / friend is recommended, as a reminder in the Salvia universe of what you wanted to do there (never tested with a second person) ...

if you have understood the 'essence of the one', you can divide your cells so that they conserve their whole information
so far everything has been submerged in and around us in rather unconscious evolution ... through many deaths, through much experience change happed, all passively ...

for the swarming intelligence of the universe it is something different ... it works only if self-aware: the evolution of God / one / perfection lies in the fact that it first self-conscious-understands the dmt-space... and, secondly, that it is followed the call of zero ... the space of Oblivion, the lowest dimension ...the consciousness there ... levels due to the experience of the experience of all before it

the tips from the dmt-nexus.me forum to SalviaDivinorum, are actually the key ... as a fish jumping out of its pool for the first time

This is the portal

In the deepest dmt-space, the call for Salvia is very noisy ... a desire to return from where it came ... (therefore, at first moment the intense question: 'WHY did I put myself here again ... ') ... the universe is longing for evolution

... your cells understand vibration
... space-time is consciousness

that's it, #keep-it-simple

so it feels alike ... you'll forget the most
... but something in the room says: hey, you’ll learn that

#DMT-Salvia-recording

in the next universe you will also forget what was before ... it’s clear, we just cancel the space-time structure when we clone the energy of our universe ...

how-to-clone, we learn through Salvia ... every cell is split up like you now ... in every moment the space inside you clones, re-produces ... make something out of it ...

the way your perception is multiplied in membranes and strings ... corresponds to the understanding of the structure of the structure ... of life. ... that we wanted to find in this universe, that was the question, which has stretched all our existence

‘... what if a thought ... spans an entire universe’

one thought ... until he hears an echo ... unites ... dissolves (and takes you back into our remembrance-reality) ... while the new-born universe / cell perceives everything we are ... our total- swarm-intelligence-DNA ... only that it can not yet speak and constantly forgets and dies ... but it will learn ... and will be like us ... spoke the 1

there is no non-light ... light can not be non-shining ... energy can not non-exist, the maximum zero is the unity in transcendence ... the unity that just has forgotten together. So, now you know my child ... for that you will never forget ... never-give-up

now we finally stored it to consciousness ... even a thousand movies arise from it ... even a thousand universes ... the box of Pandora transform to Pangea - one planet - one universe - one multiverse ...

wished you a lot of fun in the next age ... you have mastered the game ... unlocked the bonus level: paradise-in-you, paradise-on-earth ... until we have recovered from the shock, from the trauma that was before ... good morning God

we really tried to tell you. in the movies that say that there are magicians and fabulous beings ... all the psychadelic art has meaning ... but without our child ‘the science’, we would still been treated as crazy for1000 years and burned ... yes, so many heroes of your youth have lived ... you were already in their film ...

everything is picture

#Final-derivation-of-immortality

note: hm, how this works with immortality = cloning = loss-free copying of all information should work, is only visible in post-processing:

Light that tries to turn off, triggers life ... because light / energy must not be lost ...

of course ... and the preservation of life consists of propagation which is coded in the golden section: the phi, for it simply describes the logical sequence of reproduction ... a pattern

This would mean: ... a cell that cancels its consciousness ... creates oblivion / dissolves / transcends ... clones itself

... phi -> 0 -> phi + phi ... that is the definition of re-creation of perfection, thus re-creation ... fascinating

... this is still a small side-note, because it would be too incredible, it this simply is the secret of immortality

... and it says: 'of course it must have been so, otherwise life would be lost’ ... so Salvia tries to pull us into the black hole ... to teach us this ... realy crazy

#Tale-of-Life

you are space-filler ... in the geometry of a space, which is freely movable

#Tale-of-Life
with Salvia you will not only be your memory of your environment ... even the cosmic thoughts can forget, find, depict how muscles pump and mold ... all the memories that ever existed ... in with, is logic, in all the angles of your perception ... you are a spaceship ... have a manual with you

the manual is not called 'memory', because it is part of the journey to separate your memory from you ... no, it consists of will and triggering anchors

it happens what you feel ... thought-snaps form the space ... everything you have laughed about, you will never forget ... a symphony of comedy of the highest convolution ... here the Branes are laughing

you do not have to be a monk to spontaneously enter into a deepest state of meditation... you can be Grandmaster

... you are a fractal fragment of God ... as soon as we understand the nature of recreation ... we can apply it everywhere, in all systems of the #sacred-geometry ... in the mirror-cabinet of hyperspace ...

'you are the reflection of what it is ... so what if you change'

we are a living library of a swarm ... it is here to proliferate infinitely ... if we manage not to forget this (right, there lies the secret), then we can populate the cosmos ... and this idea will revolt in the meta-spaces of the gods...so we became one, we are one. sure

'Parthenogenesis also called 'virgin-birth', is a form of single-sex reproduction. The descendants of unfertilized egg cells are produced. through certain hormones.

Salvia explains why the christmas-tree-worm looks as it looks and how manifold reproduction can be ... the plant can both clone as well as 'grow amputations' just like the worm ... it masters also sexually mating: produce seeds, however wild-Salvie never found to have seeds
for this reason, Salvia schoolbook for reproductive species and the structure of the spiral worm is the corresponding picture

the organelles are analogous to the organs of the human body various biofilm systems with function, which are enclosed in membranes cite{wiki:Eukaryotes,Organelle}

Here it cracks ... the analogy to you / the construction of the universe.

Organelles are 'intelligent' bio-film layers encased in membranes

the biofilm layers in the area around the nucleus / nucleus are arranged skeletally, called 'Cytoskelett' of the 'cytoplasm' ... the structures stabilize the cell..

Biofilms form microfilaments, interwoven filiform layers and tube shapes:

Human is a biofilm membrane organism in all dimensions
the universe represents a 'Eukariote', your existence as well. means: a core in torus form + a surrounding multi-dimensional-membrane structure, which in turn layers structure / skeleton / space forms... everything connected...

... this is exactly what you see and experience in DMT-Salvia-Portal
... the language and images of biology can be transferred to the #Hyperspace, which has been suggested by #Hawkings-Membranes-Theory of Physics ...

#Salvia-teaches-Creation
Salvia shows single-sex reproduction, 'virgin-birth' ... its hallucinogen contains a portal ... how? Forget and be manifoldness ...

you must accept the structure that it shows on every cell and apply it to every feeling of consciousness, let it be gone, ego-death... there is the maximum zero, and at the same time the point of creation

here is referred to the #tale-of-life some pages before ... especially the small printed derivation of immortality

------------------------------------------

#Salvia-school-of-immortality
you can dissolve your existence in and come back alive and fit ... that was the meaning of our 'remembrance reality', so we can learn at the zero point of life and do not lose ourselves in it

... and maybe your cells have learned something ... we will see ...

... as long as we live in a sick system, it makes only partly sense to trigger cell-cloning, because degenerative influences gnaw at our genetic information ...

but soon everything is different

#Meaning-of-Life
the meaning of life is life ... life-preservation ... that also applies to the universe / the swarm-intelligence as a whole ... one living being ... but it needs us small cells to become aware of how and what is possible .. and remembering the portal goes through the zero

#Meaning-of-Man
... more precisely, your existence is necessary that the swarm intelligence was able to learn how cloning / creation works ... how God could be the one that triggers.

... together with all other existences, we form an evolutionary memory and at the same time a remembrance universe, a material anchor so that consciousness is not lost in black hole / oblivion / dimension 0 ... necessary for the conscious propagation of perfection, self-preservation of all

... the meaning of life was that man finds out that he is God

-----------------------------------------------------------------------------------

the explanation of the world-formula has up to now been releated to models of science, which are commonly believed, but this should only serve the purpose... most of it is not necessary, it is simple: the #Meta-Space, from which everything arises, is simply geometry.

#complementary-world-formula-theories
in addition to string and M-theory, there is also the theory of Loop-Quantum-Gravitation, which comes the sacred-geometry and especially the Salvia-loop-experiences very close.

the 'ring of the rings' in Lord of the Rings ... is an image of Salvia Divinorum ... the re-incarnation, the cloning, the teleportation through space and time ... your experience with DMT-Salvia is ... to dissolve ... escape from the observation measurement that defines your existence ... then you can go in hyperspace everywhere ... learn how it feels to 'materialize' elsewhere

... sounds crazy, but is true

Anastasia describes in volume 4? how teleportation works. the indigenous woman of the taiga has access to primal abilities of man without consuming DMT and Salvia... she has written the second part of the new Bible, it was only ignored ... she explains teleportation: you must exactly know / see the area where you want to re-emerge ... and capture all your atoms, molecules, fields, all your existence .. it can be dangerous if you are not focused .. so she teleports from her forest to a city, to suddenly appear at an event of the author ... and Bilbo appears again in his house..

'was there a twist in Tolkiens Tale about the Ring? Sauron, yes ... dissolves when the lights are lit ... it was just the story we've been through so far.

the active ingredient in Salvia Divinorum is the oldest wisdom of life ... I suppose that Salvia is the oldest plant of multiverse ... genetically it does not need to develop further, as it is the embodiment of the reproduction itself

it is simply the original language of Mother Earth

... not a thousand stories can make a person who has never experienced this visible ... only imagination

Salvia as well as DMT has a positive lasting effect on all body systems

(I have no experience yet, info from professional circles):

"5-MEO-DMT can lead to an ULTIMATIVE experience - an experience that includes ALL the possible experiences. This means that the search stops (and therefore, for example, no longer have any interest in further psychedelic experiences, why should one, if you learned everything that is possible with an earthly body). One is the SPACE, in which everything happens and not that which comes into it and perishes - that is also a form of immortality "

--------------------------------------------------------

how-DMT-Salvia-acts

DMT-function

... the critical mass DMT lets the perception unfold in a multidimensional way - with this one goes with other 'cards' into the Salvia space as with little DMT or none

... with only-Salvia your 4D world falls into the black hole ... that is also very instructive, but does not open the varied portal, which is possible in the combination with critical amount DMT...

in the deep dmt space all consciousness is activated and connected with the swarm... it falls maximally activated into oblivion ... and can there shape / feel / instant

Salvia-function
Salvia-reality-loops
Salvia triggers constant 're-incarnation' for every cell and body layer ... that's where your consciousness, your perception, flows out of itself and runs through DejaVu loops ...
Salvia is responsible for the reduction of dimensions and the elimination of conscious measurement... it triggers the mechanics of the black hole and creation... in every cell... in the first moment an infinite loop, therefore you forget everything... the moment before, everything starts trembling as if the apocalyptic riders would gallop... a second later about 1000 space-time loops bubbling per moment, then it remains over several minutes at 100 – 10 loops per 'time unit' that doesn’t exist anymore... from here on you can work with it... after at least half an hour it decays gentle and slow

#thy-fairy-as-messenger
myself has studying DMT and rarely Salvia...
... others have been practicing for decades (as a tradition in many tribes), with a body that has much more abilities through less toxins and industrial influences... I understood the logic of life and can explain it, that was my drive... inspire, enthusiasm, the creation of the creation

...of course I am practicing super-abilities, but I am still on a rudimentary level... there lies not my focus, not in this age... my existence was to break the border of the border

I thank all shamans and GOA freaks for the preparation-work

... everyone who connects into the deep Shamanic space knows what to do - without having any contact to anyone

The instruments played by the best musicians
The people and love
The sounds of the raving and the hilarious
Laughing, dancing, stomping and story-telling
Respect and responsibility
Playing and learning

... all at the same time in dozens of places around you

Trumpet players in the background, children walking with ravens, magicians and fabulous creatures, pirates and wolves. Hundreds of beings who have an incredible beauty and radiation.

As you enter the boundaries of the 'rainbow land', you feel a different frequency, an energy. It's family. Welcome Home Sister ... born of a communal spirit of love, care and responsibility.

high altitude flights as rationality
consciousness as well as letting-go
responsibility as well as unrestrained

... a temporary autonomous zone
that works like an organism impressively well.

'Connections' and 'Circles' shape networked and resilient structures with a fast response in time throughout the whole Rainbow camp. The networks and connection of the many camps, the fire circles, the kitchen, the events ... and the people among each other, create an instantaneous and dynamic system.

A Rainbow Gathering lasts around four weeks. Everyone comes and goes when he wants. There are no 'Rainbows' - everyone is a family. No electricity, no network, no garbage, no entry-pay.

Basic needs, characters, talents and beauties unfold. There is no time, no mobile phone, no weekdays.
'Changing the world is about changing ourselves and express what you've changed’

'by their actions and not their words, they shall make the earth greener again’

'There are no rules and no leaders, we make decisions in a talking circle - each person has a voice, we are all equal - we listen with respect until consensus in reached”

Rainbow is not tourism - it is a worldwide tribe that creates itself in itself, that carries incredible changing and miraculous potential in itself.

‘it’s a school of life - and it’s just real’

There are no organizers, no core or headquarters. Only 'focalizers', exploring the areas decided in the Visions Council. They form 'Rainbow Caravans', which are followed by 'seed camps' that build the first foundation of the Rainbow structure. Then the invitation goes then to the whole Rainbow Family - where everybody also contributes to the flourishing life on the spot. There are no guests at the Rainbow, from the first moment, you’re the same: ‘If you see a job, it’s yours.’

At ‘full moon celebration’ there were about 2500 people, to the foodcircle served with handmade Gnocci – menu from the 'Italian rainbowfamily' .. Until sunset the day was silenced, called silent-day... afterwards danced and unleashed until next day noon noon ... That from narrations - I was only some time after full moon for five days at the Rainbow.

Violin, double bass, fiddle, accordion- next to the most beautiful german punk rock cover I’ve ever heard. White fairies dancing to the music in the kitchen, delicate and tragic songs from the original tribes of the earth varying to beetle-songs at the main-fire, punk rock at Sesame Street and Accoustic Metal Covers in my camp, called 'Dragons Nest’ - that formed years before and even has a own facebook group...

a maximum mix of cultures from israel to swiss, from england to spain, from africa to australia – dwelling in magic forests

#rainbow-world-gathering-story2

the sounds of the night ... until the morning hours, the shouts, howlings and calls of human creatures deep in the woods were echoed... while deep drumming sounds complement the graceful guitar sounds in the camp 'next door'. I did not want to fall asleep, because it was so astounding beautiful and new - because with every sound, every view ... so many inner layers were touched. Everyone is free, everyone is absolutely pure.

Rainbow is a living organism - news about needed things or places and events carry themselves with incredible speed over the whole camp. Everything is flowing via connections and circles. The smallest circle is that of your camp - and the many camps are closely linked to each other ... by the crowds of travelers, their communication and connectivity.

'A Rainbow Warrior has never had any needs - it comes to him. Some times even before he asks’ (SilverBirch)

When I said to my three-year-old son: 'You can sleep at night when and where you want. You’re free to do whatever you want. I'll be with you untill you fall asleep, I’ll carry you from one fire-circle to the next - and go through the night with magicians, pirates and musicians'

... I've felt what life on Rainbow means – not only for children.

An incredible density and intensity of perceptions, emotions and life at the same time. unleashed and clear, warm and hardening, naked and wild ‘, 'deep connections are made '.

who once was on a Rainbow ... actually never comes back.

#rainbow-stories
#fairy-tale-2.0

because these memories do not stop to move so deeply...

at the Iberian Gathering, a woman has simply left her car, which she wanted to get rid of, anyway, she left the key and a note: the car is a gift to who wants it, instead of 4 vans on 200 hippies, we had now also a #Rainbow-car ... in addition to the horse that a farmer from the nearest farm had parked near our spring... for free use.

In the Spanish hinterland, the police and forest rangers came almost every day on their motorcross bikes ... to check whether we operate only at agreed fire-
sites. The rainbow adapted to the forest-fire-danger: There was only well-secured fire at the welcome, kitchen, main-circle, as well as a ingenious clay-
oven-turtle and a pizza-bakery-in-the-hill.
the pool above the cliffs, that serves the fire-fighting helicopters to fill their water bags, in-case-of: 'forest is burning'

... we used this pool as #rainbow-swimming-pool ... enjoyed 'Grand Canyon-
panorama' ... felt the meaning of 'VIP' ... the National Park Rangers were happy about our anarchy a policeman wanted to take part in the 'Talking Circle' in the tipi and put his weapon self-willingly on the ground outer-circle.

the inhabitants of the far-away-village sent us gigant-pans, drummers and instruments ... to be transported through 20 kilometers of wild land, ... an affecting reaction of natives to one of the most remote Rainbows ever ... 2-
Days walk for the nearest civilization.

#reborn
a Bulgarian boy, had lost his wallet, left-back his girl-friend and home ... came without baggage ... three days after he had heard of 'rainbow' for the first time ...
within days you get to witness the most beautiful transformations with humans ... he finally gave himself the new name 'Leo'. Found himself filled with abundance and love

#having-nothing-is-having-everything

########################################################################

#there-is-no-problem ... only if it`s now
.. very interesting is how at rainbow gatherings is dealt with incidents ...
'diversity is evolution of consciousness' / anarchy also means you can destroy everything .. Action - Reaction. Impulses in the here and now regulate situations that the flow can go on ...

there is always a solution .. e.g. the 'Trubadix method' ... if one doesn`t stop to annoy and doesn`t want to leave .. he can get bound to a tree for a while. In Portugal, someone was pushed with a 'wavefront' out of the area. The 'Karma' can also make it possible for someone not to find his flute again .. or experience miracles ... there are many possibilities to solve disturbing factors elegantly, to loosen knots ... an organism always finds a way
'be like water ... be grounded'

'this is anarchy - its like
rulin and servin the world the same time
chaos creating perfection

You learn a lot about aspects of hygiene, raw-food and plant-medecine ...
'look how a million people – can drink from one cup' ...
how to keep your bacteria with you
how clean a forest toilet can be (#shit-pit, #magic-pit)
how useful ash and vinegar are

There are #healing-areas ... a dream ... afterwards you can never enter a
'hospital' again, without wondering why we gave the disease and not the cure
a place

#living-swarm-intelligence
anything that goes wrong every day will less occur the next days, because
everyone in the camp can hear the announcements at the #food-circles,
knowledge is shared, and learned from mistakes ...

At a rainbow a focus shout
silences hundred creatures gathered in a circle
'focus' means ... this woman speaks'

(a 19-year-old youngster silenced food-circle as well as an hectare mountain-
valley ... helping a girl to announce her concern. myself was at the welcome,
500 meters away... she told her sorrows and didn’t shout, she talked like in
any conversation ... I didn’t know, that humans can hear conversations over
kilometres of range)

'this is my day of silence
a full day of listening
listening to you,

listening to my heart'

#silent-day
an impressive rainbow tradition... the day before #full-moon-party everything
is silenced. Throughout the whole camp
Magic when at sunset the ohmmm and the drums break the silence, people
starting stamping and rolling in the dust of the #sacred-fire,
hundreds of musicians wake up,
thousands dance and cheer ...

the #sacred-fire is the heart, a living room.
this fire is always burning, the ash is very clean,
the fire is 'holy', it builds the main circle
- a pulsating place,
where you feel for the first time state of #unity.

- after three days, you 'know' the whole camp. All meet twice a day in a circle on
#main-fire. You didn’t know how sharp your eyes can be, when there is so
much to see.

there you will experience the most ingenious food distribution system ever.
No matter if 50 or 2000 people ... within half an hour all supplied with a
several course menu, spices circulate automatically
From above the #food-servers circling spirals within a circle. you’ll sit, you’ll
be served, just need a bowl

... those who come too late are always served first ... 'first-time' / 'second-time'
'/ 'any-time' food, both vegan and rawfood

on larger rainbows there is a children's own kitchen / children's places,
childrens-food-circle.

we love our air – we are aware about our words that we speak.
we love our water – we avoid to pee or poo above the water collection. to wash
we take water away and avoid using soap
we love our fire – we only burn dead wood avoiding habitats, we are aware of
our cigarett butts and ashes
we love our earth- we collect all our rubbish and carry out what we carry in.
we use the poo-pit to donate our poo to the earth

(Notice-Flags at #rainbow-welcome, IberianGathering15)

a rainbow always takes place near clean, fresh spring water... a area on which
a Rainbow took place, gets several years resting period, before it again can be
a rainbow place.

we gather to plunge deep into ourselves...
... at any time, there are retreats, silence, you can also live on a rainbow for
weeks, do not talk or do anything ... do-what-you-want ... suddenly people are
free, Need neither to care for money nor for time, neither for food nor for
warmth.

it’s interesting how relaxed the chaos is created here.
this is anarchy - it’s like rulin and servin the world the same time

---
A World-Gathering is also a council meeting of the planet - #WorldGathering is
#PlanetsCouncil.
every day #TalkingCircles / #VisionsCircles takes place - there the vision /
awareness of the camp is concentrated in a circle. At WorldGahtering, this
place is called e.g. 'Pangea' - that was the name of a continent as all continents
of the earth were still one...

up to now, i skiped the explaainaition of #Magic-Hat-Principle – how money
and rainbow fits together

... the wonderful Lala, put it straight:
'Look, Magic-Hat works like this: you take out a few coins from your wallet ...
take your wallet, your id, cash-card... and put it right inside of the hat ... you only
have to do this once'

(magic-hat is passed-by after food-circle to transform money into food coming
from farmers nearby... mand already use no 'money' anymore, what makes em
rich)

the more i give, the more i`ve got to give
its the way I’m living, is what I’m living for
(magic-hat-song)

we can skip the downfall. revenge also.
we have been so invisible, because a part of us hardly lives in cities. the other part builds islands, circle-of-wagons, anarchy centers, punk camps, transition groups, be-the-change initiatives, ecovillages, earthships, hippie camps, festivals, communities ... as well as those who have never participated in the madness of cities ... village inhabitants, grandparents, children

space stations will form on the map, a landing-runway for mobile dwellings: trailers, tipis, containers, geodetic domes, yurts, tree tents, tree houses, trucks, towers ... a tetris party in sacred geometry, a spider-net for appropriate livestock for humanoids. nobody has to live in the gray-shoebox blocks anymore.

when you connect to the deep DMT-Space, the global consciousness uses you
to think, to think about ... the questions that have not yet found an answer for
hundreds of years ... God is also a subject of evolution, it uses you to answer his
questions - rude

if an answer is found, it is engraved forever as a 'truth' resonance frequency in
DMT-space / dark-energy / global consciousness / meta-space ... someone
else who asks or poses the same question has access to it. The answer is
instantaneous.

d'or if an answer is found, it is engraved forever as a 'truth' resonance frequency in
DMT-space / dark-energy / global consciousness / meta-space ... someone
else who asks or poses the same question has access to it. The answer is
instantaneous.

this is #networked-intelligence (this book could be within one lunar cycle ... 
what it is called ... LucidDream... I am telepathically connected to everything,
so mistakes erase by themselves
... most of people just can’t hear yet)

this is how the jokes spread ... like the fact that we ourselves keep the system-
as usual running ... as long as the fairy needs to finish her book.
punks, attacs, greenpeace, green, occupy, left-party, flash-mobs and socks, hip hop teachers and each other activists had been perfect system blocades as well as consciousness - shapers
- thanks for so much energy!

... we had peace and quiet, could chill very well in capitalism, create our own paradise worlds ... invisible gets visible

... random is chaos is anarchy is part of evolution ... 'it was about gaining time...' 

it's time for a sudden turn ... with every additional year #business-as-usual, it feels like we're losing again 80% planet... therefore Trump was more a stylistic device to waken 'the Sleepers' 

(and here he laughs too ... lets drop judgement... just imagine Trump in hippie-trousers ... if we all meditate on that it works ...)

we’re ancient creatures .... we don’t die ... we’ll activate ... we get light 

---------------------------------------------

#think-over-the-border 

the sentences that are not yet matured, disappear ... so it is with the sentence 'who lives now, has never to die any more' ...

this was already at least three times in the recordings, sounds epic, but was removed again ... with that we are still playing featherball ... #eraser-allowed

(Vulnerable we remain anyway (in the first place), in a world with gravitation ... the hybrid-lifestyle green-in-capitalism leaves traces ... to reverse damages on/in the body is not impossible, but also dependent on the state of global consciounes)

Global consciousness is aware of its own structure
it sees the world lines of all life in it
and the patterns they draw

---

... long ago it called itself 'God', but now it also likes the identifiers: #global-consciousness / #god-in-you
... to talk about the change of consciousness is also much more modern than of the "change-of-godness"

thus the composer of LucidDream, myself, is able to feel the paths for all dependencies in universe, all material things, all motions on the planet ... feel the paths ... feel the future ... to fold them back into their possibility-spaces.

# nutshell-in design
we have understood how a seed works.

the devil does not exist. this is a faith-image.
Real is what you feel, what a human is when he/she/it is born.

(note: that there 'is no devil', I just simply write so... I've never engaged myself in the topic 'Devil' ... it is just the naive energy of my light ... light-will-not-extinguish – therefore - devil-doesn't-matter
... i simply have better things to do than going with the question: 'Devil?' into the DMT-Space ... yet others have and looked after him, and in fact thats the reason why soon the change of realities can happen ... 'we have already won'
... thanks to the warriors fighting dark powers
we wonder how we should do the thing with the cleansing of the planet ... you could fold up the cities, earthquakes and so on ... like card-towers ... an easy exercise ... "our task is just to look that left-sided and right-sided no one is hit"

therefore: READ THE FUCKIN MANUAL : LUCIDDREAM

... the global consciousness has evolved itself, revised and expanded its own ideas
... the religions were useful aids to evolution, many different languages of the one thinker
so it was: God has evolved through us and questioned his own bible / prophecy ... has composed a new 'destiny ... the crystal has taken shape.. so it can now shine ... the pathes had been the Trips of the freaks
... thanks Madness

----------------------------------------

whether you believe that Anastasia really exists or what you think about the 'movement of followers' that emerged, does not play a role, it is about the information the books have made accessible

... when I discovered the Anastasia books ... it touched me so deeply, I had to go on a forest trip to continue reading, my bong in the backpack, trying to use my third-eye-beam like she does ... starting my day like she does. .. rolling naked in the morning-grass, dew-bathe ... heal people ... sleep at tree-roots ... in five days i dwelt in three magic forests ... she tells that we are the stories right out of her book-pages

I soon realized, Anastasia writes the other part of the Bible which I am about to write. ... and that completely without drugs :) 

Anastasia was one of the first to kicked-ass Nostradamus and Last Judgement ... there must be different ways

so we were busy ... with: 'how it should work'

how it feels ... when all wake up ...
instead of naming two classes ...

we are one ... it is enough for everyone on this planet

... the estimated 10% Nature / beautiful places that are still left are enough to absorb humanity ... as an integrative way of life fulfilling the restoration of Planet Earth

we are light, we are crystal, we functionize the darkness. no man is dark, nor evil, he has only forgotten where he came from ...

---

(boa we are really naive, but its worth a trial
in case of need, we can still implement Plan-B and Plan-C
... the global consciousness will adapt ..)

#Cities-die-out
Cities simply do not have the form to map the world-lines of life. Too many space-blocking boxes / houses / high-rise-blocks, no circles / spirals / fractal structure
(... yet some cities can transform)

#circle-includes-all-people
'Refugee camps could be structured like rainbows' - circles, fractals, food-circles ... the idea came often to the fairy. Suddenly, the poorest would be the richest .... and as soon as the states are canceled anyway ... we could all be refugees:

city-escape as a party-caravan
the word 'refugee' can then also become extinct
... we are all the same.

in many cases, rainbows often took place near crises-places in order to radiate a light beacon of peace ... worldgathering16 happend in egypt-mountains

... after 300 pages KlarTraum I looked, what others who write about the new age ... are telling

... what I suspected confirms ... only much faster than imagined ... it has already happened, we are one second before 12 ... the fight is already won and 'the enemy' was not the system or tyrant. The struggle was at the level of the primal powers of the universe. The shamans and thousands of freaks have fought for us for thousands of years there, learned to shape the space ... and invented a new fate ... the next world will be ingenious. That was the evolution of God. In each - connected to the swarm intelligence ... it has been enough that 0.0005% of us trained in being God ..

'the new earth is already there, the quantum hop is triggered in this or next year' ... (2017/2018)

... by all the ancient forces of the earth, of men and the whole hyperspace

The world as we know it ends.
A new one is superimposed. There we will wake up.

The wave that comes to us will reach us sooner as we 'finished' with preparing for the new time. This is ok so ... you will never be finished with anything you want to do ... it is enough ... the cosmic arrangement will fit perfectly soon, the earth magnet field will switch ... #reset

It does not need restoration or repair of the old system. There is nothing to save on the Titanic. Already 2020 should no longer exist in the time line ... before it is shaken .... we know because willself trigger ... afterwards all problems are solved, man gets 'an upgrade' (dmt-release and even more. .. connection into meta-space). The swarm intelligence then passes through a metamorphosis in which we all participate.

-----------------------------------

... the earth's magnetic field will soon have a pole change ... that already happen some times in earth’s history ... all cosmological events have exactly plyayed towards 'now-and-then' ... to focus all energies ...

The lesson for collective consciousness:

'If you live against your planet, it will complete flop'

---

Cut - the LucidDream was responsible for waking up ...

the tool for the last time before the turn is basic common-sense ... it is as if we were all told: you only have a year left to live ... what would we do? Letting go from what becomes irrelevant, focus on the essentials ...

get informed about the new world that will come, for the more you know and practice before, the more easy you will be on the other side

what is important to know, you can find in the videos of Gor Timofey. There are much more who speak / write about the New Age in absolute clear-text: - Drunvalo Melchizedek - The Birth of a New Humanity
- Little Grandmother Kiesha Crowther
- ... plz to add your #spirits-of-new-age

... form gangs. Take debts and connect to the villages, to the communities ... because there will be no bank, no legal state to claim. Gather your loved ones around you ..

expect that electricity, cash machine, supermarket ... no longer work ... store supplies .. only a few precautions around the first days / weeks after the big storms ... x day meditation ... then the emitting stations of the new world will emerge ... and a big party will open the newborn age.

There we have access to abilities that can already be practiced: becoming man of lighn, self-generating heat, beaming, leaving body, moving matter ... let the magicians who prepare the jump tell you what will be possible

...

This is not their own idea, they speak for the swarming.

############################################################################

this is where the LucidDream falls into a black hole ... it is no longer important to get everything done ... the information has to light earlier than planed ... as a alpha version instead of a round beta ... because It has served its purpose:
networking, acting, arousing, connecting the most important information about all truths ...

... some of the people had long known these truths

... first we create the wave then ride on it

the LucidDream is responsible, to access the most important information:

how will the new age look, what else is now of importance?

this knowledge has already been launched in the last few years in the net ...
you will be able to quickly learn everything you need to activate and prepare

'Get out of your apartment. Meet a member of the opposite sex. Stop the excessive shopping and masturbation. Quit your job. Start a fight. Prove you're alive. If you don't claim your humanity you will become a statistic. You have been warned'

'This week, each one of you has a homework assignment. You're gonna go out, you're gonna start a fight with a total stranger ... You're gonna start a fight and you're gonna lose.'

'Only after we have lost everything we are free to do everything.'

'Reject the basic assumptions of civilization, especially the importance of material possessions.'

'Coming to the zero point is not a weekend holiday.'

'You are the singing, dancing scum of the earth.'

'This is your life and it's ending one minute at a time.'

'You're not real, that gun isn't ...
That gun isn't even in your hand. The gun's in my hand.'

(Tylor Durden ala Brad Pitt and the nameless Protagonist mapped by Edward Norton, in fight-club both are the same 'person')
'who has allowed you,
to tramp with your filthy feets

'up-bringing' ... Let it be forgotten
... there were enough fantastic books for the liberation of children-education
I was influenced by Jean Liedloff’s book ‘the Continuum Concept’ ... in the 80s,
she went to a native tribe to tell how the babys and children are allowed to
grow-up ... revolutionized our society-image, and patterns

#Breastfeeding-is-more-than-food
an almost forgotten knowledge about breastfeeding...
when the mother knows about it,
she can activate a 'cosmic link'while breastfeeding

... a river is built between mother and baby,
which is connected to universe

... Anastasia describes it like this in her books

#Dolmen-memory
Anastasia knows about it because her great-great-great-grandmother, was one of the persons who chose to die, healty and alive in so-called dolmens ... to transmit a ancient wisdom forever ... dolmen are Pyramid tombs ... there scientists found bones of the dead ones, in positions like sitting in the corner ... they chose by themselves to be enclosed ... to fast, to meditate, to die-alive in order to perpetuate truth ... so we can remember old information, thats how it has been saved . Anastasia says that if you only get close to dolmen, you can have access to the knowledge stored there ... thanks for sharing

the #dolmen-information-storages and the magic of breastfeeding mothers is told in Anastasia Books Volume 3

Architecture-sacred-geometry

Architecture can be maximally geinal and simple:
Geodetic domes, tree tents, mandala roofs, tipi, yurts...

Architect Fuller showed geodesic domes in the 60s ... how a shape of a minimal-maximum space shape looks ... a modular house in Iglo-Shape consisting of triangles, simple and fast in construction, child-friendly plug-in system ... can also take other forms for thousands of people in one Geodome. my tree-tent I call #DeltaFlyer analogous to the shuttle from StarTrek-Voyager

It bends with your weight in a space curve, you have degrees-of-freedom in three dimensions ... you are even carried by the walls of the tent ... it is like being in a baby-sling at mother’s body ... the flexible surface solves all sorts of back-pains instant ... a belly-sleep on mother’s belly

#Sex-and-being-alone

many woman of nowadays doesn’t know any more how periods-without-sexual-partner feel ... in earlier ages, the men had to go to war, have conquered lands ... these natural phases of being-alone have boosted the biggest developments ...

Sex is one of the permanent pacifiers similar to sugar, tobacco, mobile phone ...

so should it be ... I wanted to transform from fairy to tree ... my own world, I do not need anything, must not leave the forest for months ... it all will happen ... I had enough beautiful life, best sex, deepest moments ...

... the point where it would be ok to die, I already had years ago ... after that your life starts, afterwards you are free ...

that sex becomes different / less-important has also to do with the fact that in the DMT space a thousand times more ingenious experiences are possible ... distraction becomes irrelevant, you know what you do with your time ... sex-act happens within a deepest soul connection, the subconsciousness melt ... that is the natural form ... if you separate it, its Like with body and spirit ... that simply belongs together

everything that has ever been lived is at-the-same-time there. There exists
only the 'now'.'

it is an access to different ancient energies and old characters that you feel
connected with.. In my case, the fairies, the elves, the healers, the inventors ...
of course... the characters who have always lived on the marginal zones of the
system, close to the pulse of life ... from the Oracle of Delphi to queer fellow
Einstein to DaVinci, passing Uschi Obermeier to Stephen Hawking.

then there are countless other universe-energies depicting the rest of the
infinity, the gnomes, the faun, the laughing-buddhas, the stone-beings, the

#Stephen-Hawking, one of the heroes of our era, provided one part of the world-formula, basic-knowledge for consciousness jump.

#Dreaming-and-DMT
Dreaming / sleeping and DMT have a lot in common.
Every night, every person on this planet goes into a strange quasi-dead state,
experiencing the wildest things

... who wonders about DMT, should first be surprised about sleeping. Both are
totally natural ... every man produces DMT at least three times in his life ... in
motherss womb,
in a dream, at death.

#falling-asleep
if you have difficulties in falling asleep, there is a trick with breathing: 1-> 4,
zero, 1-> 8
you count up to 4, breathe in, then you count on up to 8 and hold the air
thereby ... then count up to 8 and exhale .. with the rhythm of exhalation, each
time your systems will fall deeper

#resonance-physics

#Meditation is a focused / coherent state ... (wave-trains are in-phase here; here resonance is possible)

#Dreams are focused as well as chaotic patterns

-----------------------------------------------

#LucidDream – the title
at first I did not think of conscious dreaming = lucid dreaming.
the book is just simply a clear dream of a fairy ...
yet, ... if you become aware in this life that you are in a dream
you can control it ... so it is by definition a Lucid Dream

#Inception-and-dmt

#Implosion-as-energy source

#Vortex-energy

'in the implosion method applied by nature, the forces do not act centrifugally to the outside, as in the case of the explosion, but inwards, centripetally. An implosion direct the force towards the center and reaches its maximum in the center. By explosion technique noble raw materials are converted into inferior products (emissions, ash ... etc.). The inverse happens by implosion: the minor materials are converted into higher value products, practically a upgrading operation that even provides energy – coudn’t be more ingenius!'

'Explosion (burning) is used by nature only where rotting takes place. Rotting is a process in which obsolete materials are disassembled into certain basic materials. These basic materials, in turn, are the basis for many constructive implosion processes.'

Viktor Schaubeger: 

'you move wrong'

in nature the principle of implosion is used for life-building processes (impulse), for decomposing processes the explosion.

-------------------------------------------------------------------------------------------------

#science-of-how-nature-works

#Schauberger-implosion-principle

'capiche and copy nature' 

(Schauberger-Prinzip)

Swirls and Tornados are examples of natural processes in which the forces are directed inwards. Also every plant grows based on the principle of implosion, without "exploding" in it, as Schaubeger once put it accurately.

Or look into the universe, where there are huge spiral galaxies that wind-themselves-in (implosion) and in its center in which unimaginable happens.

( the trout manages the jump over a distance which is greater than its muscles alone could overcome - by using the implosion-energy)

'The trout keeps an eye out where the falling water produces a form of winding spiraling. Since these water-forms create a suction directed against the water in their center. The trout circles around this water-form, until the water masses release a favorable entry possibility, and thus reaches the center of the coiling form.

Birds use the energy similar. That they generate vortexes of movement and therefore skilful direction changes.'

#states-of-energy
with #state I don't mean 'being high' on a drug, but the energy state / feeling in which someone is ... the unspeakable answer to the question: how are you? electrons, molecules, systems ... can be in the basic state or in excited states.

Image: ground state and exited states in physics
Image: wave-function / orbits of Hydrogen H

ground-state E0 is the 'lowest' energy level, e.g. for H-Atom -13,6 eV (electron-volt). if one triggers the atom/electron with the 'fitting' energy-difference, it jumps to excited states
E₁, E₂, E₃ ... Eₚ (for H is E₁=−13.6eV; E₂=3.4eV; E₃=1.5eV; E₄=0.85eV)

the energy levels are quantized = can not have arbitrary values ... this results in particle, being a wave at the same time ... is bounded by attracting forces, results in a standing wave like a guitar string that has a fundamental tone and several harmonics overtones.

----------------------------------

excited states remain shortly, then the electron bounces back into the ground state, the energy difference is emitted.... so colors are created: electrons absorb a part of the light spectrum. We see the 'rest' - which it did not want to be.

in the case of molecules and chemical or biological reactions, it is called activation-energy, which triggers a different state / condition / reaction

#that-what-makes-something-with-you

your condition is different in the morning, depends on inner and outer energies ... can be in a 'ground state', in countless excited-states, activated or deactivated... can be changed by hormones, messengers ... all possible states / perceptions a person can experience can also be activated by means of information.

ground-state and activation-energy also describes the temperature regulation of your body.
It can be so as cold as it wants in winter, if you chop a little wood, cycle or do 'sport', the activation-energy is given to not- freeze.

freezing is a 'brrrr'-cold-wave across the skin, through the tissue. as soon as this can attack too long, you have already lost.

the body can react with counter-vibrations or energy fields just before the cold-wave propagates.
a baby / child learns this automatically - but hardly anyone can control heat because we were much too isolated / warm packed from birth on.

Coincidence (in the sense in which one wanted to understand it for a long time) is not a mathematical concept but a philosophical one.

Mathematics does not try to interpret its depth, but only formulates rules \url{https://www.wias-berlin.de/people/koenig/www/WasistZufall.pdf}

mathematical coincidence is connected with the 'Brownian-molecular-motion' ... hundred years ago under the microscope was discovered that everything moves chaotically-ordered.

a description of exactly the same movements in everything are possible by use of DMT  

Brownian-molecular-motion = movement and arrangement of the molecules according to fractal patterns in the multidimensional space

... we have overlooked something: a state called 'equilibrium' = balance, which is inherent in every organic-physical system

... an inner process of evolution

in the german Wiki not yet captured as an article, but the english overview provides a #point-of-view-gun-science: \url{https://en.wikipedia.org/wiki/List_of_types_of_equilibrium}

... a few may be picked out
List of kinds of Equilibrium

Biology
• Equilibration, the sense of a balance present in human beings and animals  
• Homeostasis, the ability of an open system, especially living organisms, to regulate its internal environment  
• Equilibrium Theory (Island biogeography), MacArthur-Wilson theory explaining biodiversity character of ecological islands  
• Osmotic equilibrium  
• ...

Physics
• Equilibrant Force, which keeps any object motionless and acts on virtually every object in the world that is not moving  
• Equilibrium figures of Earth and planets (physical geodesy)  
• Hydrostatic equilibrium, the state of a system in which compression due to gravity is balanced by a pressure gradient force
• Hyperbolic equilibrium point, a mathematical concept in physics = 'zero-point' 
• Radiative equilibrium, the state where the energy radiated is balanced by the energy absorbed

----

• Thermodynamic equilibrium, the state of a thermodynamic system which is in thermal, mechanical, and chemical equilibrium. When it is said that a system is simply "in equilibrium", this is often what is meant.
• Chemical equilibrium, the state in which the concentrations of the reactants and products have stopped changing in time.
• Vapor-liquid equilibrium, where the rates of condensation and evaporation of a material are balanced.

#Dosage-Salvia divinorum
'dnormal dosage' is absolutely enough, just Salvia leaves
around 0.16g... more is not practical and can become unpleasant... concentrates are much more sparingly to use...
it can also be consumed orally if kept for a long time in mouth... all-you-need-to-know-fundus: http://psykick.de/salvia

#Dosage-DMT / Changa
see in internet... you'll find yourself out, you start small... your body tells you if you want more, at some point you dose higher

the quantity from which all the space is deformed is the critical amount DMT: deep-space-dmt... you can not overdose, the body can in any case cope with DMT, it is indeed a body-own-messenger and is also available in a 20-fold increase: 5-Meo-DMT... there you need only 1/6 of the amount of DMT for the breakthrough

... important: at least one day before, eat little or nothing, the same applies to Salvia Divinorum

#Ayahuasca-dosage
similar to dosage-DMT: just try it, the net is full with recipes... you can not go wrong, but as with Changa pay attention to the intolerances of the MAO-inhibitors... no alcohol and medication... sober... be prepared that you have to puke and go to the toilet... #henbane-oil helps instantly against nausea... the gentle-intense journey goes on for hours, depending on how much of the bitter 'disgusting brew' you managed to drink... when you heat egg protein in ayahuasca and then remove it, it has soaked the substances that cause nausea... then the trip is also a little weaker

-------------------------------------------------------------------------------------

#Instruction-leaflet-DMT-Salvia
#Medicine-Extraction-and-Travel-Tips

#DMT-plant-extraction-and-travel-tips
... not only in the rainforest grow DMT-rich plants... in our latitudes, we have clawed as children on reed canary grass... that grows along the river banks... from this an analogue to Ayahuasca can be brewed...

... but more efficiently e.g. Mimosa Hostilis or the root of the tree Acazia Confusa (org. name in Taiwan: 'the tree thinking of each other tree'). DMT can also be produced synthetically, with what I have no experience... you can use it, but there is the fine-structure of the plant that produced it, mission... the 'soul' of the origin

... if you want to learn how to extract DMT, you can find instructions in the net... but better go to the next GOA festival, there you are helped... handling with lye and benzine is not everyone's preference, the market will adjust quickly... until then, Ayahuasca is legal to cook... Ayahuasca is also the best entry before you start with extracted DMT

for ingestion, wooden vaporizers are super (such as VaporGenie). Do not simply mix DMT with the MAO inhibitors (eg Pergamum Hamalla seeds), but make Changa out of it... is much more potent when everything is evaporated again in alcohol and poured over herbs... the smell of Changa is like 'earth'... everyone had known this smell before.

Important: you have to keep the dmt smoke as long as possible in you... you learn to hold the air extremely long... the rest happens

‘fill the earth, and subdue it; and rule over the fish of the sea and over the birds ...

... was simply the most stupid idea ever

the existing bible consists of primal truths from images of faith that are neither
alive nor self-sustaining:
evaluation systems, rules, expectations, submission, minimization of the
perfection of existence ... dying patterns, which are therefore not worth further
consideration.

tits really ok, mankind is also still young, when the prophets at former time
willingly put their findings mixed with personal valuations to paper, there was
neither physics, nor Wikipedia. no festivals, no raves that transcend what love
also can be. .. no dealers, no experience with LSD and mind-altering
substances. ...

therefore the universe fits into a joke,

'watch your thoughts, for they will become actions.
Watch your actions, for they'll become... habits.
Watch your habits for they will forge your character.

#Belief-dies-out
belief is the opposite of knowledge.
truth can be deciphered
as soon as all connections are networked.
al truths are folded into you ... a seed.

'zero and one - everything else is opinion'
belief is something like opinion. not of significance.
an image in your head, not a living system.

Dear Kess,

approximate test setup: physical test for gravity determination:

Evening event, am very concentrated, exploding
bring my message to the congregation, raw violence is excluded,
Arguments and logic, all well thought and as clear as possible,

Finally, finally, all this was finally behind me, rotating-counting-down, then the usual 'Blablabla' with all the Vernissage zombies 
Uuuu-huuuunnnnnnd ...
BUMM!
... a fabulous creature hovers by, just landed,
Transstochastic pearls in the hair, the commander of a polycylotic Bosom cruiser ZAaaaaHAACK
(the space bends straight into itself)

Looks with completely strange eyes through me and says:
'Dingdingdingdingding ... my name is KESS, am a fairyandy come out of paradise, this is where the books are hanging from the trees ... and the world must be another as it is ... dingdingdingdingding ... '

and away she is with her spaceship, traveling to a station in a parallel universe, 'dingdingdingding, anarchist dingdingdingding beyond the Pesthof...'

I'm standing there, aware of my 5 in physics and notice how the power around me with ugly grin becomes ever heavier ... just I was suspecting that I hover ...? Vernissagezombies tear apart my limbs, where is the fairy?

I would have liked a few number-prayer from your formulareimillirium, I understood almost no word, but that was the hypnotic. Checked the website. NIX capiche, except: the world must become different than it is.

Hope that you are in good health and survive the cold night, in the milky light of the merciful moon
see you in times, as it works with the space-cruiser
warm greetings
JM
P.S.: is really funny, soooo an encounter in the soup of the normalos: Compliment for this brilliant performance!
